

HEART PINE HARDWOOD FLOORING

We were very pleased to uncover during the exploratory process our historical Heart Pine flooring was in excellent condition.

A small sample area of carpet was removed and the original hardwoods were sanded and finished. This exposed coveted heart-of-pine flooring. The hardwood vendor left one stripe untouched and raw (appears yellow) and applied a clear polyurethane to the remaining area (appears darker) so our Committee could evaluate. This sample area of hardwood flooring is located by the back handicap door entrance on the North side of the Sanctuary.

Our Committee will be recommending that we showcase this significantly historical element throughout the entire Sanctuary and not recover with carpet.
