

Pew End #188
Custom Rout

PEW DESIGN & MATERIALS

The Pew our Committee will be recommending pay tribute to the historical wooden pews that were once in the Sanctuary.

The material suggested will be a long-lasting, durable, solid-wood Oak stained a darker finish.

The recommended seat pads will be removable, double-sided, button-tufted cushions. Our Committee feels this would allow for spot cleaning, repairs and/or replacement as needed without ever having to repurchase the Wooden pews themselves.

We will be recommending a neutral golden tan, durable fabric called "Craze Plaster". We choose this in order to highlight the golden colors within the stained glass windows and to lighten up the Sanctuary's overall color pallet. A sample is located on the "Idea Board" for you to see.

The middle routing design mimics the arches on the satined glass windows and matches the design within the Chancel Furniture located in the pulpit.

A Pew quote is currently being finalized. The lead time once ordered will be 120 days. We are hoping to have a fund raiser the will grant donors the ability to place a memorial/in honor badges on the pews.
